Demining Capability Coalition for Ukraine

Ukraine currently is the most mined country in the world. The mines not only threaten civilians but also hinder the reconstruction of the country's destroyed infrastructure, prevent farmers from cultivating some of the most fertile land in Europe, and block the return of displaced people. Every day, soldiers are killed or injured by mines on the front lines.

> russia is deliberately using mines as a weapon of terror. Their goal is to prevent Ukrainians from returning home, from working their land, and to block Ukraine's reconstruction and recovery efforts.
>
> Kęstutis Budrys
> Lithuania's Minister of Foreign Affairs
